

glōPeptide+Defense

Mission Statement

Revives the appearance of stressed, fatigued skin with strengthening ingredients to bring energy and life to skin's complexion. This potent blend of anti-aging and skin rejuvenating ingredients will advance skin care results, leading to a healthy and radiant appearance.

glōPeptide + Defense not only provides natural protectants against environmental aggravates, but also cellular and structural support. A blend of peptides improve skin functions to enhance elasticity and durability, and as may reduce the appearance of fine lines.

Recommended For

All skin types, except for oily skin; great for aging, mature, sun & environmental damage, post-resurfacing recovery, dull, fragile, preventative measures

Active Interest

Venuceane™ – extracted from a deep sea microorganism, it provides free radical protection and multi-enzymatic activity to uphold the strength of skin cells against environmental aggravates

Copper – enhances wound healing, action of antioxidants to soften and smooth skin

Matrixyl™3000 – a peptide that may improve the appearance of fine lines by strengthening the skin

Pepha-ctive® – a specialized microalgae extract that stimulates and enhances the skin while improving the overall complexion

Syn®-Coll – a peptide that stimulates the skin's production that may reduce the appearance of wrinkles

Calmosensine™ – a peptide designed to reduce the effects of "negative feelings" on skin so that a calmer and more comfortable appearance can be maintained

DN-AGE® – an extract of the Candle Tree that provides protection against UV damage, supports cell repair and fights against photo-aging

Ubiquinone (Coenzyme Q10) – an antioxidant that helps protect the skin from environmental stress and pollution

Superoxide Dismutase (SOD) – disarms the destructive free radical "Superoxide"; also provides anti-inflammatory benefits

Rooibos (Red Tea) Extract – from the African Aspalathus linearis plant, rich in polyphenolic antioxidants

White Peony Extract – helps purify and detoxify the skin

Squalane – a colorless, odorless and greaseless oil derived from olives that deeply penetrates skin to moisturize, nourish, repair and facilitate the absorption of other actives

Selenium – an essential micronutrient that participates in multiple cellular processes

Tocotrienols – similar to tocopherols, but more powerful to provide stronger topical protection against UV and environmental free radicals

Trehalose – a disaccharide sugar that protects cells from structural dehydration damage by retaining water and forming a cushioning, supportive gel

glōComplex

Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)

pH

4.38

Directions

After cleansing and toning apply once per day in the morning or evening. If needed follow with appropriate glōMoisturizer.

Composition

Aqua (Water), Helianthus Annuus (Sunflower) Seed Oil, Caprylic/Capric Triglyceride, Squalane, Rhodiola Rosea Root Extract, Glucose, Chondrus Crispus (Carrageenan), Polawax, Sodium PCA, Cetearyl Oliviate, Sorbitan Oliviate, Ribes Nigrum (Black Currant) Seed Oil, L-sodium Hyaluronate, Thermus Thermophilus Ferment, Butylene Glycol, Carbomer, Polysorbate 20, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-7, Algae Extract, Palmitoyl Tripeptide-3, Rosa Rubiginosa Seed Oil, Laureth-3, Hydroethylcellulose, Acetyl Diipeptide-1 Cetyl Ester, Alcohol Denat., Cassia Alata Leaf Extract, Rooibos (Aspalathus Linearis) Extract, White Peony Extract, Simmondsia Chinensis (Jajoba) Seed Oil, Glycerin, Cocos Nucifera (Coconut) Fruit Juice, Epigallocatechin Gallate, Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron), Acetyl L-carnitine, Ubiquinone, R-lipoic Acid, Crataegus Monogina Leaf Extract, Phytic Acid, Adenine, Vitamin B Complex, L-glutathione, Cysteine, Tocotrienols, Copper Peptide, Selenium, Manganese, Superoxide Dismutase, Trehalose, D-ribose, C 18-36 Acid Triglyceride, Xanthan Gum, Citrus Aurantifolia (Lime) Oil, Citrus Paradisi (Grapefruit) Peel Oil, Citrus Nobilis (Mandarin Orange) Peel Oil, D-alpha-tocopherol, Gluconolactone, Sodium Benzoate

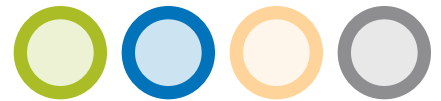

Works well with

Retail products: glōConditioning collection, glōRemedy Gel, glōPure Hydration

Professional products: glōEnzyme, glōLactic, glōModified Jessner, glōTCA 10%

glōSuper Serum

Mission Statement	Features the ultimate anti-aging complex to firm, tighten, renew, repair and strengthen, thereby supporting the cell matrix. Skin will appear more youthful and become structurally healthy.
Recommended For	All skin types and skin conditions
Active Interest	Argireline® - a peptide that reduces the degree and depth of wrinkles Matrixyl™3000 - stimulates skin fibroblast while healing and repairing the cell matrix Marine Oligopeptides - provides skin with the amino acids it needs to synthesize collagen; also stimulates skin function and retains moisture Glycosaminoglycans/Sodium Chondroitin Sulfate - matrix metalloproteinase (MMP) inhibitor, aids in slowing the aging process Epidermal Growth Factor (EGF) - stimulates tissue repair and strengthens the skin Superoxide Dismutase (SOD) - disarms the destructive free radicals and provides anti-inflammatory benefits Alpha Lipoic Acid - potent antioxidant that defends against free radicals 1% Retinol - accelerates cellular renewal
glōComplex	Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)
pH	4.62
Directions	Apply in the evening to face 2-7 times per week. If extra hydration is needed, layer a glōMoisturizer over the serum.
Composition	Aqua (Distilled Water), Hamamelis Virginiana (Witch Hazel) Extract, Glycerin, Argireline® (Acetyl Hexapeptide-3), Glycosaminoglycans/Sodium Chondroitin Sulfate, C12-15 AlkylBenzoate, Matrixyl™ 3000 (Palmitoyl Oligopeptide-Palmitoyl Tetrapeptide-3), Retinol, Marine Oligopeptides, Epidermal Growth Factor (EGF), Superoxide Dismutase, Alpha Lipoic Acid, Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron), Xanthan Gum, Fragrance Oils, Gluconolactone, Sodium Benzoate
Notes	Sun alert: the retinol in this product may increase skin's sensitivity to sunlight. Wearing a sunscreen daily is highly recommended.
Works well with	Retail products: glōConditioning collection, glōPurifying collection, glōRetinol CS, glōBrightening Serum, glōBrightening Polish, glōLightening Serum Professional products: All glōtherapeutics chemical exfoliation products to customize a treatment.

glōRenew Serum

Mission Statement Retinol and hydroxy acids stimulate mild exfoliation and cell renewal to smooth skin and improve texture and tone. Blended with antibacterial agents that provide oil control benefits.

Recommended For Acne, oily, aging skin, pre-treatment

Active Interest

- 1% Retinol** - accelerates cellular renewal
- 7% Glycolic Acid** - keratolytic AHA that smoothes and improves skin's texture
- 2% Salicylic Acid** - renews skin and has anti-acne and anti-irritant properties
- Hydrolyzed Yeast Protein** - conditions skin while controlling oil and sebum production
- Pyridoxine** - anti-acne, antibacterial, antioxidant
- Totanol™** - a natural antioxidant botanical extract derived from the New Zealand Totara tree
- D-panthenol** - an anti-inflammatory that hydrates, stimulates cellular proliferation and aids in tissue repair

glōComplex **Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)**

pH 2.48

Directions Apply in the evening to face 2-3 times per week. If extra hydration is needed, layer a glōMoisturizer over the serum.

Composition Aqua (Distilled Water), Hamamelis Virginiana (Witch Hazel) Extract, Ethanol, Glycerin, Glycolic Acid, Salicylic Acid, Retinol, Hydrolyzed Yeast Protein, Pyridoxine, Totanol™, Niacinamide, D-panthenol, Allantoin, D-biofin, Xanthan Gum, Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Spin Trap (Phenyl Butyl Nitron), Gluconolactone, Sodium Benzoate

Notes Sun alert: The hydroxy acids and retinol in this product may increase skin's sensitivity to sun. Wearing a sunscreen daily is highly recommended.

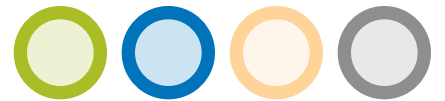

A patch test is highly recommended at least 24-48 hours prior to treatment.

Works well with Retail products: glōPurifying collection, glōPure Hydration

Professional products: All glōtherapeutics chemical exfoliation products to create a more aggressive treatment.

glōPure Hydration

- Mission Statement** A lightweight gel that boosts hydration through an infusion of water binding humectants. Provides a protective moisture reservoir that reduces the effects of dehydration, discourages transepidermal water loss and balances moisture content of the skin.
- Recommended For** All skin types including pre & post treatment, dehydrated, mature, and oily
- Active Interest**
L-sodium Hyaluronate - delivers and maintains water hydration to protect against free radical damage caused by environmental aggressors. Holds 1000 times its weight in water; prevents transepidermal water loss
Punica Granatum (Pomegranate) Bark Extract - calming antioxidant, high in Vitamin C
Acai Fruit Extract - known as nature's energy food, highly antioxidant (8 times that of red wine), rich in Omega Fatty Acids, supports barrier function regulation
Pink Guava - rich in tannins, flavonoids, vitamins, fiber and fatty acids that have antioxidant qualities and therapeutic activity. It is higher in Vitamin C than citrus and contains appreciable amounts of vitamin A
Squalane - greaseless oil that deeply moisturizes, nourishes and plumps the skin while facilitating the absorption of other actives
- glōComplex** **Phyllanthus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)**
- Directions** Apply in the morning and/or evening under a glōMoisturizer. May also be used alone.
- Composition** Aqua (Water), Hamamelis Virginiana (Witch Hazel) Extract, Psidium Guajava Fruit Extract, Punica Granatum Bark Extract, L-sodium Hyaluronate, Euterpe Oleracea (Acai) Fruit Extract, Glycerin, Squalane, Phyllanthus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron), Gluconolactone, Sodium Benzoate, Xanthan Gum, Phenoxyethanol, Trisodium Ethylenediamine Disuccinate
- Works well with** Retail products: glōPurifying collection, glōConditioning collection, glōPeptide + Defense
Professional products: All glōtherapeutics chemical exfoliation products to customize a treatment.

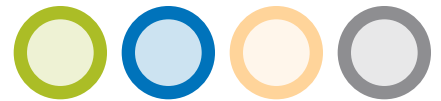

glōRetinol CS

Mission Statement	The highest cosmeceutical strength of retinol to minimize the appearance of fine lines, pore size and texture irregularities. The addition of brighteners create a glowing fresh appearance.
Recommended For	Aging/mature skin, fine lines, sun and environmental damage, dull complexions and before chemical exfoliation treatment
Active Interest	3% Retinol – accelerates cellular renewal and assists in collagen synthesis 5% Glycolic Acid – smoothes skin and improves its texture Gallic Acid – an antioxidant with anti-viral, astringent and tyrosinase-inhibiting properties Vege Harvest™ – a specialized blend of cucumber, carrot and tomato extract that has an immune-supportive, nutritious and rejuvenating effect on the skin Mulberry Bark Extract – natural botanical skin brightener Exfolactive® – a compound of prickly pear (Opuntia) oligosaccharides that stimulates the activity of the skin's own exfoliation enzymes to enhance cell turnover without irritating or sensitizing skin
glōComplex	Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)
pH	2.3
Directions	Apply in the evening to face 2-7 times per week. If extra hydration is needed, layer a glōMoisturizer over the serum.
Composition	Hamamelis Virginiana (Witch Hazel) Extract, Aqua (Water), Alcohol Denat. (Ethanol), Glycolic Acid, C12-15 Alkyl Benzoate, Butylene Glycol, Daucus Carota Sativa (Carrot) Root Extract, Solanum Lycopersicum (Tomato) Extract, Cucumis Sativus (Cucumber) Fruit Extract, Hydrolyzed Opuntia Ficus Indica Flower Extract, Retinol, Gallic Acid, Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron), Daucus Carota Sativa (Carrot) Seed Oil, Morus Alba (Mulberry) Bark Extract, Xanthan Gum
Note	Sun alert: The AHA's and retinol in this product may increase skin's sensitivity to sunlight. Wearing a sunscreen daily is highly recommended. A patch test is highly recommended at least 24-48 hours prior to treatment.
Works well with	Retail products: glōConditioning collection, glōPurifying collection, glōBrightening Serum, glōBrightening Polish, glōLightening Serum Professional products: All glōtherapeutics chemical exfoliation products to create a more aggressive treatment.

glōBrightening Serum

Mission Statement glōBrightening Serum contains a multi-faceted spectrum of ingredients to combat hyperpigmentation. At therapeutic levels, the ingredients take action at the origin of the problem to create a refreshed and glowing complexion. This serum is safe to use both frequently and long-term for sustained improvement.

Recommended For All skin types, hyperpigmentation, sun & environmental damage, freckling, dullness

Active Interest

- Tyrostat™ (Rumex Occidentalis Extract)** – natural tyrosinase inhibitor derived from the Western Dock plant
- Lumiskin® (Diacetyl Boldine)** – a tyrosinase inhibitor naturally derived from Chilean tree bark that helps inhibit pigmentation induced by cellular stress
- L-arbutin** – a natural plant-based derivative of hydroquinone with tyrosinase inhibiting abilities
- Azelaic Acid** – a grain and yeast derived compound that suppresses the growth of follicle bacteria, helps normalize disordered cell growth; is an antioxidant and anti-inflammatory.
- Licorice Root Extract** – tyrosinase and photo-pigmentation inhibitor; antioxidant and anti-inflammatory properties
- Mulberry Bark and Bearberry Extracts** – natural non-sensitizing botanical brighteners
- 2% L-lactic Acid** –smoothes skin and improves texture; has natural brightening abilities
- 3% Glycolic Acid** –smoothes skin and improves texture

glōComplex **Phyllantus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitroene)**

Directions Apply a small amount to target areas or all over the skin once or twice daily.

Composition Hamamelis Virginiana (Witch Hazel) Extract, Aqua (Water), L-arbutin, Alcohol Denat. (Ethanol), Glucose, Xanthan Gum, Chondrus Crispus (Carrageenan), Glycolic Acid, Glycerin, L-lactic Acid, Caprylic/Capric Triglyceride, Diacetyl Boldine, Azelaic Acid, Rumex Occidentalis Extract, Citrus Medica Limonum (Lemon) Peel Extract, C12-15 Alkyl Benzoate, Phyllantus Emblica (Amla) Frui Extract, Aminobutyric Acid, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitroene), Glycyrrhiza Glabra (Licorice) Root Extract, Morus Alba Bark Extract, Glutathione, Arctostaphylos Uva Ursi Leaf Extract, R-lipoic Acid, Xanthan Gum, Lavandula Angustifolia (Lavender) Oil, Citrus Aurantifolia (Lime) Oil, Citrus Medica Limonum (Lemon) Peel Oil, Pogostemon Cablin Oil, Citrus Sinensis var. Sanguina Oil, Santalum Album (Sandalwood) Oil

Notes Sun alert: The AHA's in this product may increase skin's sensitivity to sunlight. Wearing a sunscreen daily is highly recommended.

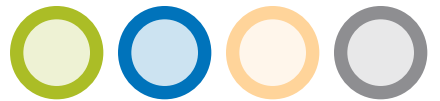

It is particularly important to observe sun protection during a brightening treatment. Unprotected or excessive sun exposure can delay or inhibit results, or even exacerbate existing pigmentation problems.

Works well with Retail products: glōPurifying collection, glōConditioning collection, glōLightening Serum, glōBrightening Polish

Professional products: glōEnzyme, glōLactic, glōGlycolic 30%/60%, glōModified Jessner, glōTCA 10%/15%, glōAlpha Beta

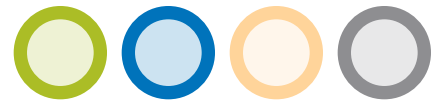

glōLightening Serum

Mission Statement	Battles discolorations with a highly effective combination of lighteners, melanin inhibitors and mild exfoliants. Additional ingredients complement the lightening process with benefits that help support the skin's health, strength and brightness.
Recommended For	All skin types with hyperpigmentation
Active Interest	2% Hydroquinone - skin lightener that inhibits the synthesis of melanin Kojic Acid - effective inhibitor of melanin synthesis that is derived from Japanese mushrooms Azelaic Acid - a grain-derived compound effective against skin discolorations Lactic & Salicylic Acids - exfoliate to accelerate the lightening process Ascorbic Acid - antioxidant that strengthens collagen, enhances elasticity, assists in skin brightening and helps accelerate repair
pH	3.0
Directions	Apply a small amount to target areas once or twice daily or as directed. Limit daily use to 6 months, wait 1-2 months before resuming treatment. Reduce frequency of use or discontinue use if irritation occurs.
Composition	Hydroquinone, Propylene Glycol, SD Alcohol 3-C, Azelaic Acid, Aqua (Distilled Water), Hamamelis Virginiana (Witch Hazel) Extract, L-lactic Acid, Kojic Acid, Salicylic Acid, L-ascorbic Acid, Hydroxypropyl Methylcellulose
Notes	Sun alert: The AHAs in this product may increase skin's sensitivity to sunlight. Wearing a sunscreen daily is highly recommended. A patch test is highly recommended at least 24-48 hours prior to treatment. It is particularly important to observe sun protection during a brightening treatment. Unprotected or excessive sun exposure can delay or inhibit results, or even exacerbate existing pigmentation problems.
Works well with	Retail products: glōPurifying collection, glōConditioning collection, glōBrightening Serum, glōBrightening Polish Professional products: glōEnzyme, glōLactic, glōGlycolic 30%/60%, glōModified Jessner, glōTCA 10%/15%, glōAlpha Beta 17%

glōRemedy Gel

- Mission Statement** Provides relief from skin irritation. Calms, soothes and heals the skin while reducing redness.
- Recommended For** All skin types, irritation, redness, burning, mild dermatitis, sunburn
- Active Interest**
1% Hydrocortisone - anti-inflammatory that reduces redness and irritation
Aloe Vera Extract - anti-inflammatory that aids in healing and repair
Soybean Oil - antioxidant that firms and smoothes skin and scavenges free radicals
Rose Hip Seed Oil - soothing emollient that aids in tissue repair
L-alpha-bisabolol - calming plant extract from chamomile with anti-inflammatory properties
- pH** 6.7
- Directions** Apply a small amount to affected area up to 2 times/day.
- Composition** Hydrocortisone, Aloe Barbadensis Leaf Extract, Aqua (Distilled Water), Propylene Glycol, Glyceryl Stearate, PEG-10 Stearate, Stearic Acid, Isopropyl Palmitate, Cetyl Alcohol, Glycine Soja (Soybean) Oil, Triethanolamine, Imidazolidinyl Urea, Rosa Canina (Rose Hip) Seed Oil, L-alpha-bisabolol, Methylparaben, Propylparaben
- Notes**
Discontinue use when the condition is alleviated, if no improvement is felt after 2-3 days of regular application, or if irritation occurs.

Do not apply to open or infected wounds - this product is not intended to treat such injuries.
- Works well with**
Retail products: glōPurifying collection, glōConditioning collection, glōSoothing Gel Mask

Professional products: All glōtherapeutics chemical exfoliation products.
